

Kenny Constructions is committed to maintaining and building on our position and reputation as a quality provider of construction services for all our Clients, partners and our company.

We are committed to exceeding our Client's expectations by providing services in a timely manner and to the highest quality, whilst always complying with all Client, statutory and regulatory requirements. We provide an environment that promotes teamwork, loyalty, trust and pride through strong leadership, communication and development of our people, whilst achieving consistent sustainable financial growth.

Kenny Constructions aims to deliver quality products by:

- Ensuring quality is an integral part of every managerial and supervisory position
- Ensuring quality is considered in all planning and work activities including understanding our Client's needs and their requirements, both stated and unstated
- Obtaining feedback from our Clients and all parties involved in the process of service delivery to gauge our overall performance and effectiveness
- Providing information, instruction and supervision and expanding our program of training to ensure that personnel use work processes that provide quality products and add value to our customers
- Ensuring that the responsibilities and authorities for relevant roles are assigned, communicated and understood within the organisation
- Appropriately resourcing to ensure the achievement of the intended outcomes of the quality system
- Ensuring quality risks are identified and potential non-conformances are controlled and prevented
- Planning changes to the Integrated Management System to maintain compliance and preserve its integrity, including wherever there are changes to activities, products or services of the business
- Monitoring, reviewing and evaluating the effectiveness of the processes implemented and our overall Integrated Management System, with a view to understanding and improving performance and identifying opportunities for improvement
- Implementing an ISO 9001:2016 Quality compliant Integrated Management System
- Ensuring compliance with all relevant legislation and any other industry requirements
- Continually improving our processes and our overall Integrated Management System in order to provide the highest level of quality product to our Clients.

The success of our quality management is dependent on:

- Ensuring that open and honest communication exists between management and all employees
- Establishing measurable objectives and targets, which will be reviewed annually with this policy, for relevance and suitability to the organisation
- Understanding the total work process and associated quality risks and requirements
- Pro-actively planning all work activities for the achievement of the required quality outputs with due consideration given to budget, program, resources and the necessary work processes
- Providing the necessary infrastructure, resources and environment for the operation of processes to achieve conformity of products
- Communicating our policies, objectives and targets and our work processes to our personnel
- Ensuring the work team and personnel are totally committed to achieving our objectives and targets
- Supporting all workers in the implementation of quality work processes, procedures and practices
- Acknowledging safety, environmental compliance and quality best practice and the management of business risks are fundamental to the success of the company.

Finnian Kenny
Managing Director
